

Ridware Hall Stable Project – Tree map for area around proposed stable block

The list is a record of the trees along the wooded spinney at Ridware Hall including heights, canopy sizes and commentary on the trees.

Please view the attached location map for actual locations of the trees

NB There are some dead trees and trees showing die back as pointed out by Sam Watkis - Tree Surgery and Arboricultural Consultancy. We will submit separate application forms for any necessary works based on Sam's recommendations.

Location	Tree Type	Height	Canopy Size	Comments
