Policy S4 of the ERLP SD affords support for development which helps maintain the vibrancy of the Countryside where it is of an appropriate scale. The policy, in sub-section C, outlines the limited forms of development able to be supported within the Countryside provided that they respect the intrinsic character of their surroundings, this includes (C.11) proposals for tourism development.

The scheme would not utilise any existing buildings nor does it appear to form part of a farm diversification scheme. Whilst sub-section B.2 of Policy EC2 does support new caravan sites within the Countryside, it is not clear from the details provided that the form of accommodation proposed could be considered acceptable under this provision. Any lodge, which could be considered as a building to be used for visitor accommodation, would not fall within this exception specified within Policy EC2. However a temporary structure, within the definition of a caravan, could be afforded support in principle under the provisions of Policy EC2 (B.2) as a new caravan site, subject to compliance with relevant provisions of the Council's development plan, and other materials considerations raised. In this respect, careful consideration should be afforded to the nature, scale, and siting of operational development associated with such accommodation and uses of land.

Whilst the scheme does not support an (obvious) existing countryside attraction a case is made within the supporting statement that the proposals have a functional need to be located in the countryside in order to provide accommodation for visitors to the area who 'come to experience the heritage, wildlife and scenery of the surrounding countryside and coast which are tourist attractions in themselves'.

Consideration needs to be given to Policy EC4. This policy seeks to increase overall accessibility, minimise congestion and improve safety, by supporting development that is accessible, or can be made accessible, by sustainable modes of transport (A).

The site is located within a Minerals Safeguarding Area, and any future application for planning permission would therefore fall to be considered against the provisions of Policy EC6 of the ERLP SD and the Joint Minerals Plan (2019). Should you pursue this development proposal to a full planning application, then it is advised that this matter is considered within any supporting statement.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- Yes
- No
