

## Aerial view of the TPO Adjacent to 2 Norham Drive Morpeth

Please Note the following Points:

- 1) When the TPO was established the density of trees was similar within the area.
- 2) As can be seen the density of the trees is now greater adjacent to 2 Norham Drive.
- 3) The trees are closer to 2 Norham Drive than any other property, followed by 1 Whinham Way.
- 4) I can only assume that Morpeth Council have allowed property owners to reduce the density of the trees, or the property owners have taken it upon themselves to work on the listed trees.
