# **Biodiversity Checklist**

#### Section 1: Protected Species

Please answer ALL questions. Please mark  $\checkmark$  in column B or X in column C next to ALL the questions in column A. Column D indicates the species survey required (black dots) for each question marked  $\checkmark$ .

<sup>1</sup> For Householder applications, including roof works, detailed photos maybe submitted of potential bat roost and nesting bird features, including all external and internal roof elevations, tiles, ridge tiles, soffits, eaves, gables and trusses, with the application for an initial assessment by the LPA Ecologist. If the building contains evidence of roosting bats or nesting birds then a Preliminary Roost Assessment and/or a Nesting Bird Survey will be required.

<sup>2</sup> Major development is 10 or more dwellings, the site has an area of 1 hectare or more or 1,000m<sup>2</sup>floorspace or more

<sup>3</sup> Minor development is less than 10 dwellings or less than 1,000m<sup>2</sup> of new office, retail, manufacturing or other floorspace

and proposed interve the generation of reliewable		No	The impacts of these vary from case to case. Your ecologist will
energy, e.g. wind turbines (either singly or in groups),			advise on the surveys required for your application.
hydro-powered schemes, or photo-voltaic arrays?		$\times$

## **Biodiversity Checklist**

#### Section 2: Protected and Important Habitats That May Support Protected Species Please answer ALL questions. Please mark a ✓ in Yes boxes or a X in the No/Not Sure boxes as applicable.

9.	Is your site within or adjacent to any of these designated habitats sites:	Yes	No	Not Sure
*	Site of Special Scientific Interest (SSSI) <sup>4</sup>		×	
*	Special Area of Conservation (SAC) <sup>4</sup>		×	
*	Special Protection Area (SPA) <sup>4</sup>		×	
*	Ramsar sites <sup>4</sup>		$\tilde{\times}$	
*	Special Areas of Conservation (SAC) for bats - for bat species cited for SACs outside the designated site but in Functionally Linked Land you can check if your site is in a SAC Bat Consultation Zone by looking at our <u>online maps</u> Further Technical Guidance on Mendip Bat SACs can also be found <u>here</u>	~		
*	Local Wildlife Site (LWS). (The applicant would need to apply for data from the Somerset Environmental Records Centre)		$\times$	

<sup>4</sup> Locations of statutory designated sites can be found here: <u>https://magic.defra.gov.uk/MagicMap.aspx.</u> A formal Habitats Regulations Assessment (HRA) may be required to be undertaken see: <u>Conservation of Habitats and Species Regulations 2017</u> (as amended)

If you answer 'Yes' to any of the above in Section 1 or 2, please include with your planning application a Protected Species Survey and Assessment and/or an Ecological/Geological Survey and Assessment. These may form part of a wider Ecological Assessment or part of an Environmental Impact Assessment.

The Assessments must be undertaken by a qualified ecologist, a member of the Chartered Institute of Ecology and Environmental Management (CIEEM). This should include details of the species and/or habitat concerned, location, significance, any anticipated impact on the species or habitat, and recommendations for mitigation. Further information on Biodiversity Surveys and Assessments can be found here: <u>Biodiversity and Geological</u> Conservation Assessment - Mendip District Council

A list of Ecological consultants can be found here: https://cieem.net/i-need/finding-a-consultant/

Please note that in all circumstances legislation pertaining to protected species still applies and it is the responsibility of the applicant to ensure that protected species are not impacted as a result of this development.

## If protected species are found during the course of the development work must be halted and advice sought from Natural England (telephone 0300 060 6000).

I hereby certify that, to the best of my knowledge, the above information is correct and accurate.

Site Location:	15 MARSH ROAD	
	RODE, FROME	
	BAN GPE	

Date:

Please return this completed form with your planning application.

2/11/22

Please Note: The completion and submission of the Biodiversity Checklist, along with any reports/surveys required, is a validation requirement for planning applications. Failure to submit the checklist, and any reports/surveys, may mean that your application is found to be invalid. Further information on the validation requirements can be found on the Council's website: <u>Apply for Planning Permission - Mendip District Council</u>

This form may be subject to change - please ensure that you use the most up to date form from our website: <u>Biodiversity and Geological Conservation Assessment - Mendip District Council</u>
