

## **Planning statement for side extension at The Carlings, Church Street, Worlingworth, Woodbridge, Suffolk, IP13 7N**

My client Mr and Mrs Sharp requires a side extension to enhance their current property and allow the property to grow with their family. The side extension is subservient in design and scale with the main dwelling but enables the layout to change enough to make the house a long term home . The materials and scale are designed to make it look like the existing dwelling. They will also be relocating the garage to bring it in line with the front elevation of the main house porch.

### **Existing Property**
