Monday, 31st October 2022

Dear Sir/Madam

18 Portland Place, Bonnie View, Blackwood, NP12 3PJ

Please find attached photographs and site plan/boundary location documents for permission to prune the branches of three oak trees adjoining our property which have TPOs on them.

This is a new, amended planning permission request with recommendations from your Arboricultural Officer, Rebekah Browning (her memorandum is uploaded as supporting evidence).

To undertake the following work:

- **T1 – Crown reduction of up to a maximum of 3 metres to suitable lateral branches**
- **T2 – Lateral reduction of damaged branch to a point distal to the rope damage, to suitable lateral branches**
- **T3 – Lateral reduction to suitable lateral branches or to branch collar as suited to ongoing management**

If successful with this application, we will be employing the services of a fully qualified and insured tree surgeon called Chris Jones from Green Valley Tree Services (<https://www.facebook.com/gvtreeservices>).

We have provided you with a detailed map of the property and boundary, locations of the three trees concerned (T1, T2 and T3), as well as numerous photographs showing the branches that have been recommended by your Arboricultural Officer to be reduced/pruned.

Continued

Continued2

We trust on this occasion that we have submitted the correct information and supporting evidence to reduce/prune the three trees indicated.

Yours faithfully

Mike Jenkins & Heather Gifford-Jenkins
