Identification of Tree(s) and Description of Works

Before answering these questions you might find it helpful to consult a tree surgeon to clarify what needs to be done.

Please provide a full and clear description of:

- The proposed works
- The trees affected including species and location

Our property boundary adjoins woodland with TPOs.

We recently applied for planning permission to fell/prune some overhanging oak trees adjoining our property (Ref: PP-11399579). This application was declined, however, the Arboricultural Officer, Rebekah Browning, advised that the application be amended with the following recommendations:

- o T1 – Crown reduction of up to a maximum of 3 metres to suitable lateral branches
- o T2 – Lateral reduction of damaged branch to a point distal to the rope damage, to suitable lateral branches
- o T3 – Lateral reduction to suitable lateral branches or to branch collar as suited to ongoing management

- All work to be carried out in accordance with BS 3998:2010
- An advisory note should be appended to the decision notice regarding wildlife issues relating to disturbance to bats and birds
- Tree operations should be undertaken by a reputable, fully insured arborist: a list is provided on the council's website, under the tree management section, or contact the Arboricultural Association for contractors working within this area
- Consent of the owner should be sought

We're now reapplying for planning permission, based on the recommendations made.

Trees protected by Tree Preservation Order should be numbered according to the First Schedule of the Tree Preservation Order. For example - T3 oak; two beech and one birch in G2.

You must identify the trees on a sketch plan showing the location in relation to building(s), named roads and boundaries.

Please state the reference you have given the plan (as described above)

T1 Oak Small, T2 Oak Large, T3 Oak Tree

Your plan needs to show the precise location of the tree(s) in relation to nearby property/roads/boundaries. It should, therefore:

- indicate the main features of the site where the tree(s) stand and its surroundings; in particular, you should:
 - o mark and name surrounding roads
 - o sketch in buildings, including adjoining properties
 - o add house numbers or names
- mark the position of the tree(s) to which you want to carry out work
- identify them by the number shown in the Tree Preservation Order where possible; if you use a different number, please make sure that this can be matched with your description of the tree(s)
- if there are many trees on the site, make clear which tree(s) are included in this application by:
 - o marking all trees on the plan, but only numbering those to which you want to carry out work
 - o showing the approximate distance between the application tree(s) and buildings
 - o adding other relevant features on the site (e.g. greenhouse, paths)

If it is impossible to identify the tree(s) accurately on the plan (e.g. because they are part of a woodland or group of trees), please identify their approximate location on the plan and provide details of how the tree(s) are marked on site (e.g. high visibility tape, tree tags, paint, etc); trees must not be marked by scarring or cutting into the bark.

Trees - Reason(s) for work(s)

Please state the reasons for carrying out the proposed works on the tree(s)

1. To prune T1 branches overhanging the garage roof (risk of damaging the garage roof and contents contained within if high winds were to break any branches). T2 - for the long-term health of the oak, and the safety of those using the garden. T3 - A reduction of the size of the branch for the long-term health of tree and the safety of those using the garden.

Do your reasons for carrying out the proposed works include any of the following

Health or safety of the tree(s) - e.g. it is diseased, fears that it might break or fall

- Yes
- No

If Yes, you will need to provide a report by a tree professional (arboriculturist)

Alleged subsidence damage

- Yes
- No

Trees - Additional Information

Are you providing additional information in support of your application?

- Yes
- No

If Yes, please provide the reference numbers of plans, documents, professional reports, etc in support of your application

Reference number for Plan (P1)

Photographs:

T1 Oak Tree: #P1

T2 Oak Tree: #P2

T3 Oak Tree: #P3

Tree Ownership

Is the applicant the owner of the tree(s)?

- Yes
- No

If No, please provide the address of the owner (if known and if different from the tree location)
