

STANWICK HALL.

PROPOSED TENNIS COURT

DESIGN AND ACCESS STATEMENT.

The tennis court is proposed to be sited on a level area of the garden tucked away to the south east corner of the garden.

The surface will be porous for good drainage.

The court will be a standard 28.8m long x 16m wide. The court finish will be a soft green and will look like grass with white court line markings.

There will be a perimeter wire fence, coloured green, 2metres tall. It will be hidden from view by an informal tree and shrub planting around it.
