

Design and Access Statement for Listed building consent application for 2 Seven Waters, Leonard Stanley, Stonehouse, Glos. GL10 3LN.

Design:

The application's proposal is to replace two inner frames of an existing casement window. The old inner frames had rotted and been broken in the wind. Consequently, they have been removed already and replaced with a temporary solution. Listed building consent is sought to permanently replace the inner frames with new hardwood frames to match windows already replaced at this property under previous listed building consent granted in 2011 (S.11/0898/LBC).

No other aspects of the property design are to be affected.

Access:

The proposed alteration has no effect on any access to the site location.
