To Whom It May Concern:

Re: EAM Bloodstock, Barrow

The above business has been a client of our veterinary practice since November 2018. This is an expanding operation in support of the Thoroughbred industry providing services to both breeding and sales preparation. This business is rapidly developing a good reputation for providing an excellent and competent service providing revenue and employment opportunities for the region.

In caring for these animal, vigilance and surveillance on a 24-hour basis is imperative. From a veterinary perspective, it is essential to have accommodation and staff on site to monitor the health and well being of the animals. This is critically important during the foaling season where short delays can have a huge impact on animal welfare and wellbeing. The on site staffing also allows support and assistance for any veterinary interventions where required.

With the above considerations, I would have no hesitation in recommending accommodation is afforded to their property off Colethorpe Lane in Barrow, post code IP29 5BE. This will allow their business to improve and flourish.

Michael C. Shepherd, BVSc(Massey), MRCVS.
