Swale Borough Council,

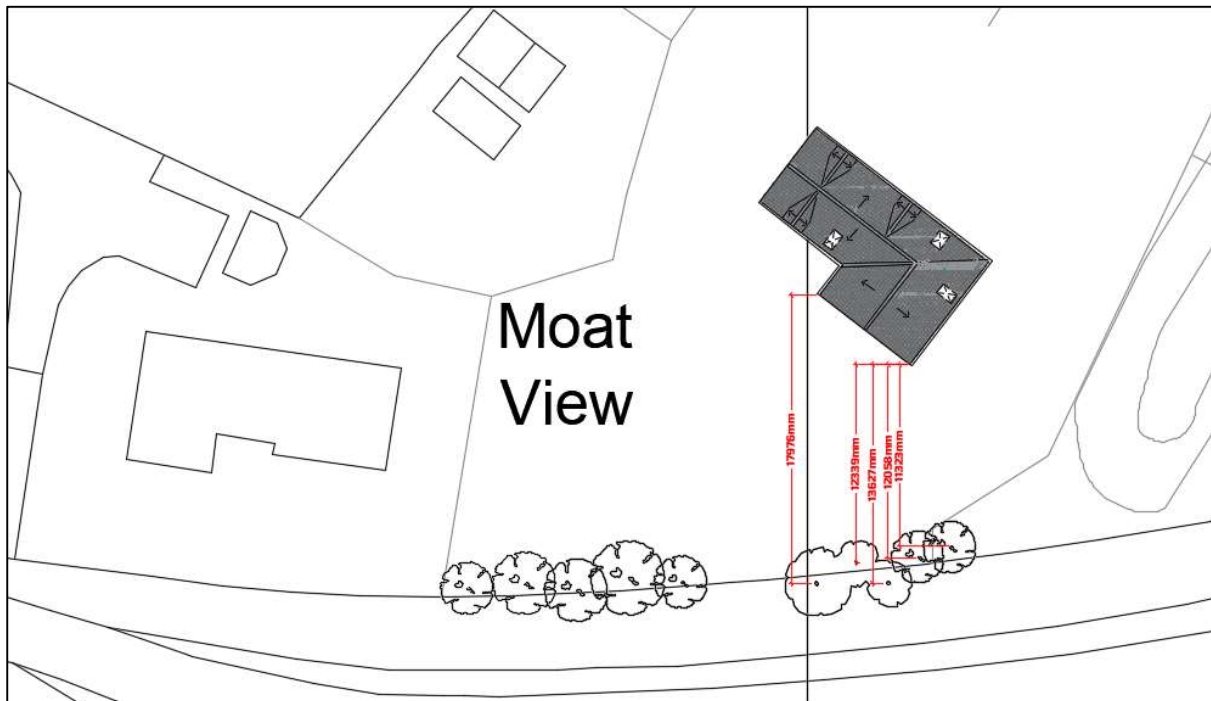

Swale House,
East Street,
Sittingbourne
ME10 3HT

Application No: **22/504968/FULL**

In regard to acquiring a tree survey for the planning application at Moat View.

We do not feel a tree survey is necessary for this application as the proposed building will have more than enough clearance from the roots/trees.

The proposed building will be set over 10m away from the existing tree line to the front of the property. The closest measurement being 11.3m from the tree trunk to the corner of the proposal, the opposing corner of the proposal is over 17m away from the tree line.

Yours Faithfully,
Ahmed Youssef
