Description of Proposed Works

Please describe the proposed works

My client carried out an alteration to their roof to create a new very small dormer for their first floor bedroom on the rear elevation. We understood this to be permitted development in accordance with the technical guidance. Mr and Mrs Whittaker have now sold their house which is at an advanced stage of the process. The buyers solicitors now are requesting approval for the extension. The dormer has been completed for over 2 years now and they have had many positive comments since completion and was granted building control sign off. The dormer doesn't overlook the neighbors and they have no objections. Anything that can be done to speed up the process so they don't lose their retirement home.
