Likely to support subject to amendments.
It is well established that stables are considered to constitute appropriate facilities for outdoor sport and recreation. However, the important
test is whether the
development would preserve the openness of the Green Belt. Small stables, which are single storey and positioned usually within an inconspicuous location within a paddock are unlikely to cause harm to openness and form part of the rural landscape.
The British Horse Society recommends a minimum of 3.65m x 4.27m for large stables and the proposed floor plans show the proposed
stables to be of an appropriate size in line with the BHS recommendations. The size of the two stables is therefore considered appropriate for outdoor sport and
recreation. The tack room and store should be reduced in size. The building should also be of timber construction.
Subject to the amendments set out above, it is considered that the proposal would be acceptable.

Authority Employee/Member
With respect to the Authority, is the applicant and/or agent one of the following: (a) a member of staff (b) an elected member (c) related to a member of staff (d) related to an elected member
It is an important principle of decision-making that the process is open and transparent.
For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
