The principal of residential development on this site has been established through the granting of planning permission for an additional dwelling. However, the site does represent an unallocated site which is in a transitional area between (what will become) a residential area and the countryside beyond. As such I consider a dense, urban form of development to be inappropriate in this location. No attempts have been made to assess the character and constraints of the site or the surrounding area to demonstrate why this was appropriate
Authority Employee/Member
With respect to the Authority, is the applicant and/or agent one of the following: (a) a member of staff (b) an elected member (c) related to a member of staff (d) related to an elected member
t is an important principle of decision-making that the process is open and transparent.
For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
