## Description of Proposed Works

Please describe the proposals to alter, extend or demolish the listed building(s)

We are looking to replace two doors that are currently part of the property - the front door and the side door. Both doors allow a lot of draughts into the property and warp, in the case of the front door we can no longer open it in fact.

We are looking to replace the doors in keeping with the property's character - they would just be made of more modern materials to avoid warping and better fitted too to improve heat insulation.

The designs chosen therefore are in line with the existing doors i.e. the side door is already a stable door and the pattern on the front door matches the original. The company we have chosen has already carried out replacement works for some of our neighbours as we are aiming for consistency too.
