CERTIFICATION

To whom it may concern

Site
Brook Hall Farm
Long Lane
Aston
Nr Stevenage
Herts, SG2 7HE

Purpose
Planning application - GPDO Class Q, agricultural to residential C3

With reference to the structural assessment survey conducted by George London for the above site, along with the drawings which I was provided with, the proposed conversion is a single storey with no increases in height/size to that which exists.

It is my opinion that the assessment carried out is accurate in that the existing structure is able to support the operational work associated with the conversion which is being proposed.
