

ON STREET PARKING SPACES

1:500 @ A3
 0 5 10 15 20

The accompanying photographs taken by the applicant demonstrate the on-street parking capacity immediate available.

As can be seen there are some 6/7 standard sized parking spaces directly outside the property of which typically only 2 get used. The dated photographs include a week-end.

It was noted during the pre-app that any proposal to increase the hard-standing to the front of the property would not be encouraged. The utilisation of the on-street capacity ensures no loss of hedging or planting to the front of the property that the Case Officer refers to in his report.

We believe that any additional parking requirements can be comfortably accommodated on-street within the immediate vicinity without causing and nuisance or congestion.
