Subject: Fwd: Application for LDC - Hilgay

[External Email]

[Think before you click on links]

Dear Luke

Thank you for speaking with me on Friday. As I explained our Architect seems to have disappeared. He is not answering either telephone, there is no opportunity to leave messages and he isn't responding to emails. Our builder, advising he intends starting work on 27th March 2023, has caused us concern as we hadn't heard from our Architect. As a result, I telephoned Kings Lynn Planning and spoke to you, and you advised no application had been submitted.

As you can imagine we are pretty desperate to get this resolved and although I have no experience, I am forced to make the application myself. Being advised there is an 8wk turnaround is very worrying given our builder is wanting to start work in 5wks. If there is any opportunity to speed up the process, I would be grateful.

As discussed, I have attached forms, plans and maps. You advised payment did not have to be made with the submission of the application. I am concerned that not including payment will delay the processing of this application and ask that I please be advised where/how payment should be made as I do not want to hold

up the process. My preference is to provide card details to a person and not process a payment online.

Many thanks for your help

Kind regards

Pat Peachey
