Description of Proposed Works
Please describe the proposed works
We would like to change the current bathroom window type to a Yorkshire slider in order to allow more air to circulate within the bathroom. Currently the only window opening in that room is very small and when the shower is used the steam collects and runs down the walls. All other windows on that side of the house are currently Yorkshire sliders therefore it would also be in keeping with the rest of the property. The new window would obviously be made from wood and be single glazed.

Details of the pre-application advice received Thank you for your email and apologies for the delayed response. The window in question is not historic and does not contribute to the special interest of this listed building. As such, the principle of replacing this with a Yorkshire sliding sash is likely to be acceptable. Any new window should be in timber and it is likely that a 6 by 6 glazing bar sash would be most appropriate. The new window should also be traditional in terms of dimensions, detailing, finish and glazing bars, and should be flush fitting. An application for listed building consent would be required for the proposed new window. Authority Employee/Member With respect to the Authority, is the applicant and/or agent one of the following: (a) a member of staff (b) an elected member

- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?
