GUIDANCE NOTE

Pipes that are shown on the public sewer map as sewers, disposal mains or lateral drains are defined as those for which a Sewerage Undertaker holds statutory responsibility under the Water Industry Act 1991 (as amended by the Water Industry Act 1999). A Sewerage Undertaker is not generally responsible for rivers, watercourses, ponds, culverts or highway drains. If any of these are shown on the copy extract they are shown for information only. Sewers or lateral drains indicated on the extract of the public sewer map as being subject to an agreement under Section 104 of the Water Industry Act 1991 are not an 'as constructed' record. It is recommended that these details are checked with the developer, if any. Assets other than public sewers, disposal mains or lateral drains may be shown on the copy extract, for information.

Does the foul water from the property drain to a public sewer?

RECORDS INDICATE THAT FOUL WATER FROM THE PROPERTY DOES DRAIN TO A PUBLIC SEWER.

GUIDANCE NOTE

The above answer is inferred from the proximity of a public sewer as indicated on the attached plan. Please view this report in conjunction with the property's sewerage and water bills and/or your own survey of the property and/or in conjunction with the vendor's property information form. Sewerage Undertakers are not responsible for any private drains and private sewers that connect the property to the public sewerage system, and do not hold details of these. The property owner will normally have sole responsibility for private drains serving the property and may have shared responsibility with other users, if the property is served by a private sewer which also serves other properties. These may pass through land outside of the control of the seller and the buyer may wish to investigate whether separate rights or easements are needed for their inspection, repair or renewal. An extract from the public sewer map is enclosed. This will show known public sewers and lateral drains in the vicinity of the property and it should be possible to estimate the likely length and route of any private drains and/or private sewers connecting the property to the public sewerage system.

Does the surface water from the property drain to a public sewer?

RECORDS INDICATE THAT SURFACE WATER FROM THE PROPERTY DOES DRAIN TO A PUBLIC SEWER.

GUIDANCE NOTE

The above answer is inferred from the proximity of a public sewer as indicated on the attached plan. Please view this report in conjunction with the property's sewerage and water bills and/or your own survey of the property and/or in conjunction with the vendor's property information form. Sewerage Undertakers are not responsible for private drains and private sewers that connect the property to the public sewerage system and do not hold details of these. The property owner will normally have sole responsibility for private drains serving the property and may have shared responsibility, with other users, if the property is served by a private sewer which also serves other properties. These may pass through land outside of the control of the seller and the buyer may wish to investigate whether separate rights or easements are needed for their inspection, repair or renewal. In some cases, Sewerage Undertaker records do not distinguish between foul and surface water connections to the public sewerage system. If on inspection the buyer finds that the property is not connected for surface water drainage, the property may be eligible for a rebate of the surface water drainage charge. Details can be obtained from the Water Company. An extract from the public sewer map is enclosed. This will show known public sewers and lateral drains in the vicinity of the property and it should be possible to estimate the likely length and route of any private drains and/or private sewers connecting the property to the public sewerage system.

Are any sewers or lateral drains serving, or which are proposed to serve the property, the subject of an existing adoption agreement or an application for such an agreement?

RECORDS INDICATE THAT THE SEWERS SERVING THE PROPERTY ARE NOT THE SUBJECT OF AN EXISTING ADOPTION AGREEMENT OR APPLICATION FOR SUCH AN AGREEMENT.

GUIDANCE NOTE

The above answer is inferred from the proximity of a public sewer as indicated on the attached plan. Please view this report in conjunction with the property's sewerage and water bills and/or your own survey of the property and/or in conjunction with the vendors property information form. Pipes that are shown on the public sewer map as sewers, disposal mains or lateral drains are defined as those for which a sewerage undertaker holds statutory responsibility under the Water Industry Act 1991 (as amended by the Water Industry Act 1999).

Does the public sewer map indicate any public sewer, disposal main or lateral drain within the boundary of the property?

THE MAP INDICATES THERE ARE PUBLIC SEWERS, DISPOSAL MAINS OR LATERAL DRAINS WITHIN THE BOUNDARIES OF THE PROPERTY.

GUIDANCE NOTE

Please view this report in conjunction with the property's sewerage and water bills and/or your own survey of the property and/or in conjunction with the vendors property information form. Pipes that are shown on the public sewer map as sewers, disposal mains or lateral drains are defined as those for which a sewerage undertaker holds statutory responsibility under the Water Industry Act 1991.

The extract of the map of waterworks shows water mains in the vicinity of the property. THE MAP INDICATES THERE ARE NO WATER MAINS OR ASSETS WITHIN THE BOUNDARY OF THE PROPERTY.

GUIDANCE NOTE

Where the property is part of a very recent or ongoing development and the water mains and service pipes are not the subject of an adoption application, buyers should consult with the developer to confirm that the Water Undertaker will be asked to provide a water supply to the development or to ascertain the extent of any private water supply system for which they will hold maintenance and renewal liabilities.

Billing Matters

What is the current basis for charging for sewerage and water services at the property?

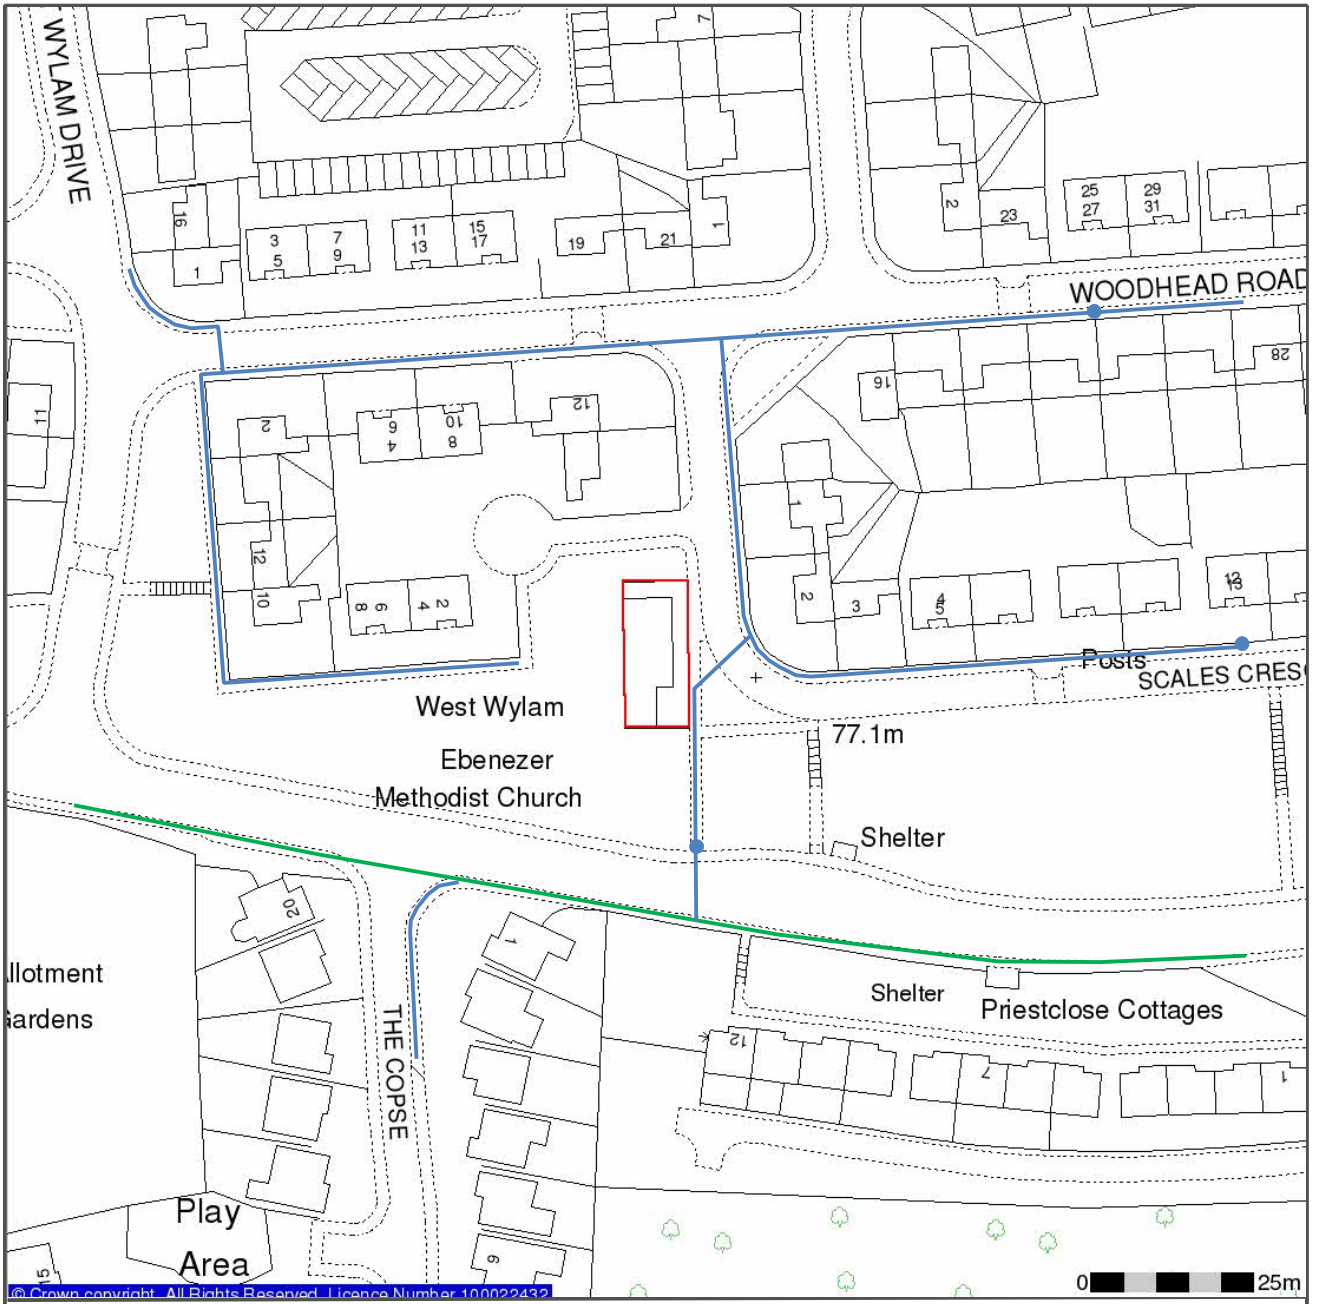

PLEASE REFER TO CURRENT UTILITY BILL OF PROPERTY.

GUIDANCE NOTE

Water and Sewerage Companies full charges are set out in their charges schemes which are available from the Company free of charge upon request. The Company may install a meter at the premises where a buyer makes a change of use of the property or where the buyer uses water for watering the garden, other than by hand (this includes the use of sprinklers) or automatically replenishing a pond or swimming pool with a capacity greater than 10,000 litres.
