Comments 1) We do not support the building of Plot 72A. The secretary of State has already given you a direction and instructions, that the area has to be returned to grass and trees, to be attractive and aesthetically pleasing.

2) The construction and completion of Wegberg Rd we do support as this should have been finished independently of Plot 72A many years ago. We stand by our previous comments regarding safety and lines of sight at the crossroads of Wegberg Rd and Steinerpoint Rd with children entering and leaving the park.
