Householder Application for Planning Permission for works or extension to a dwelling

Town and Country Planning Act 1990 (as amended)

Publication of applications on planning authority websites

Please note that the information provided on this application form and in supporting documents may be published on the Authority's website. If you require any further clarification, please contact the Authority's planning department.

Site Location

Disclaimer: We can only make recommendations based on the answers given in the questions.

If you cannot provide a postcode, the description of site location must be completed. Please provide the most accurate site description you can, to help locate the site - for example "field to the North of the Post Office".

Description of Proposed Works

Please describe the proposed works

1) Proposed installation of a small scale, ground mounted solar PV Array. This would be used to power Swafield Hall and the cottage that is currently being rebuilt (LA/15/1409) & to reduce the carbon footprint of both buildings. The hall is currently heated by oil and electricity. The initial installation would be 32 panels, (possibly) increasing up to 72 when rebuilding work is finished on the cottage and we have experience and ROI data from running the system. 72 panels would generate 26,295 kWh / year. 48 panels would provide 17,530 kWh / year. 32 panels would generate 11,686 kWh / year.

2) Install a double socket EV charging point for use by the owners and guests staying in the cottage & hall, allowing the owners to switch to an electric car and helping boost tourism in the area. The charging point will primarily be run from batteries charged by the solar panels or by off-peak electricity.

As we open the formal gardens several times a year for charity and the annual village fete we would prefer the panels to be hidden in an enclosed area.

Has the work already been started without consent?

Yes

No

Materials

Does the proposed development require any materials to be used externally?

Yes

No

Please provide a description of existing and proposed materials and finishes to be used externally (including type, colour and name for each material)

Type:

Other

Other (please specify):

Solar Panels

Existing materials and finishes:

N/A

Proposed materials and finishes:

Black cell panels mounted in floor tubs

Type:

Other

Other (please specify):

Wall mounted EV Charger

Existing materials and finishes:

N/A

Proposed materials and finishes:

Subject to availability the charger would be a dual point, untethered Rolec Zura in grey (to blend with the flint work).

Trees and Hedges

Are there any trees or hedges on the property or on adjoining properties which are within falling distance of the proposed development?

Yes

No

Will any trees or hedges need to be removed or pruned in order to carry out your proposal?

Yes

No

Pedestrian and Vehicle Access, Roads and Rights of Way

Is a new or altered vehicle access proposed to or from the public highway?

- Yes
 No

Is a new or altered pedestrian access proposed to or from the public highway?

- Yes
 No

Do the proposals require any diversions, extinguishment and/or creation of public rights of way?

- Yes
 No

Parking

Will the proposed works affect existing car parking arrangements?

- Yes
 No

Site Visit

Can the site be seen from a public road, public footpath, bridleway or other public land?

- Yes
 No

If the planning authority needs to make an appointment to carry out a site visit, whom should they contact?

- The agent
 The applicant
 Other person

Pre-application Advice

Has assistance or prior advice been sought from the local authority about this application?

- Yes
 No

If Yes, please complete the following information about the advice you were given (this will help the authority to deal with this application more efficiently):

Officer name:

Date (must be pre-application submission)

15/03/2023

Details of the pre-application advice received

I write in response to your pre-application enquiry received on 1st March 2023.

Firstly, from a procedural point of view, I can confirm that the stand alone solar array would definitely not need listed building consent but would need an application for planning permission; this is by virtue of Schedule 2, Part 14, Class B of the The Town and Country Planning (General Permitted Development) (England) Order 2015.

In the event of receiving such an application, the key consideration for the Conservation & Design section would be the impact of the array upon the setting of the grade II listed building. In this regard, a combination of the separation distance between the array and the heritage asset, and the natural screening provided by the existing mature hedging, would prevent any substantive harm occurring. As a result, I would not anticipate there being any C&D objections to this particular proposal.

As regards the EV charging points also mentioned, these will also require planning permission if they are to be cited anywhere within the curtilage of the listed building; Schedule 2, Part 2, Class D of the GPDO refers in this case. In the absence of any details on their precise location and appearance, it is not possible to offer informed comment on their acceptability. However, assuming that they would be relatively recessive and would not detract from the setting of the hall, these are also likely to be viewed favourably.

Please be aware that the views expressed are those of an officer and are not binding on the Council or any of its Committees when considering any subsequent related planning application(s). In accordance with our pre-application protocols, they also do not take account of any wider planning considerations which might emerge.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- Yes
- No

Ownership Certificates and Agricultural Land Declaration

Certificates under Article 14 - Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended)

Please answer the following questions to determine which Certificate of Ownership you need to complete: A, B, C or D.

Is the applicant the sole owner of all the land to which this application relates; and has the applicant been the sole owner for more than 21 days?

- Yes
- No

Can you give appropriate notice to all the other owners/agricultural tenants? (Select 'Yes' if there are no other owners/agricultural tenants)

Yes

No

Certificate Of Ownership - Certificate B

I certify/ The applicant certifies that:

- I have/The applicant has given the requisite notice to everyone else (as listed below) who, on the day 21 days before the date of this application, was the owner* and/or agricultural tenant** of any part of the land or building to which this application relates; or
- The applicant is the sole owner of all the land or buildings to which this application relates and there are no other owners* and/or agricultural tenants**.

* "owner" is a person with a freehold interest or leasehold interest with at least 7 years left to run.

** "agricultural tenant" has the meaning given in section 65(8) of the Town and Country Planning Act 1990
