Description of Proposed Works

Please describe the proposals to alter, extend or demolish the listed building(s)

We would like to install a wood burning stove in the cottage and to satisfy our insurers, we need to make sure the Chimney stack top is 1.8 metres from the thatch roof. This means we need to raise the chimney stack by partially adding to the stone chimney with reclaimed stone sourced from a local reclamation yard, and then the remainder of the height needed will be reached with a small clay chimney pot. We currently have approx one metre, we just need to add another 80cm of height in total.

The original chimney stack is already on the roof of the building.

It will not be replaced or removed in part or whole in any way - only added to vertically, to provide 80cm more of height. A similar process was followed on the adjacent roof, with the chimney of the attached cottage known as Wynwallow Cottage.
