What Are You Applying For?
Based on the type of work proposed and the location and protected status of the trees involved, there are various details and supporting information that will need to be supplied in order for the Local Planning Authority to determine the application.
Are you seeking consent for works to tree(s) subject to a Tree Preservation Order?
<ul><li>✓ Yes</li><li>○ No</li></ul>
Do you know the Tree Preservation Order reference number(s)?
<ul><li></li></ul>
Please enter the title or number for each relevant Tree Preservation Order
49/2008 G2 3birch
Please indicate whether the reasons for carrying out the proposed works include any of the following.
If so, your application MUST be accompanied by the necessary evidence to support your proposals (see guidance notes for further details).
Condition of the tree(s) - e.g. it is diseased or you have fears that it might break or fall
<ul><li>○ Yes</li><li>② No</li></ul>
Alleged damage to property - e.g. subsidence or damage to drains or drives.
○ Yes ⊗ No
Are you wishing to carry out works to tree(s) in a conservation area?
<ul> <li>✓ Yes</li> <li>○ No</li> </ul>
Documents and plans (for any tree)
A sketch plan clearly showing the position of trees listed in the question 'Identification of Tree(s) and Description of Works' MUST be provided when applying for works to trees covered by a Tree Preservation Order.
A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes).
It would also be helpful if you provided details of any advice given on site by an LPA officer.
Are you providing additional information in support of your application (e.g. an additional schedule of work for the question 'Identification of Tree(s) and Description of Works')?
<ul><li>○ Yes</li><li>② No</li></ul>

## Identification of Tree(s) and Description of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out

G2 3 (Birch) - Crown reduce by up to 2m to the red line shown in the attached photo, maximum pruning cuts of 40mm. These trees have been reduced before and we wish to remove the new growth only above the previous pruning points. To keep these trees in size proportion to their position in this garden and to prevent them putting too much growth on that they can't support in the future, light prune now to manage them. Low amenity value from the main road.

You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work.

Where trees are protected by a Tree Preservation Order, please number them as shown in the First Schedule to the Tree Preservation Order where this is available. You should use the same numbering on your sketch plan (see below for sketch plan requirements).

Please provide the following information:

- · Tree species
- The number used on the sketch plan; and
- A description of the proposed works.

Where trees are protected by a Tree Preservation Order you must also provide:

- · Reasons for the work; and where trees are being felled
- · Proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

e.g. Oak (T3) - Whole crown reduction to 12m above ground level, to provide sufficient clearance to property.

## Sketch plan requirements

Your plan needs to show the precise location of the tree(s) in relation to nearby property/roads/boundaries. It should, therefore:

- indicate the main features of the site where the tree(s) stand and its surroundings; in particular, you should:
  - o mark and name surrounding roads
  - sketch in buildings, including adjoining properties
  - o add house numbers or names
- mark the position of the tree(s) to which you want to carry out work and identify them by the number shown in the Tree Preservation Order where possible; if you use a different number, please make sure that this can be matched with your description of the tree(s)
- if there are many trees on the site, make clear which tree(s) are included in this application by:
  - o marking all trees on the plan, but only numbering those to which you want to carry out work
  - o showing the approximate distance between the application tree(s) and buildings
  - o adding other relevant features on the site (e.g. greenhouse, paths)

If it is impossible to identify the tree(s) accurately on the plan (e.g. because they are part of a woodland or group of trees), please identify their approximate location on the plan and provide details of how the tree(s) are marked on site (e.g. high visibility tape, tree tags, paint, etc); trees must not be marked by scarring or cutting into the bark.

With respect to the Authority, is the applicant and/or agent one of the following:  (a) a member of staff  (b) an elected member  (c) related to a member of staff  (d) related to an elected member	
It is an important principle of decision-making that the process is open and transparent.	
For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed obse considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.	rver, having
Do any of the above statements apply?  ○ Yes  ⊙ No	
Declaration	
I / We hereby apply for Tree works: Trees in conservation areas/subject to TPOs as described in this form and accompanying plans/or and additional information. I / We confirm that, to the best of my/our knowledge, any facts stated are true and accurate and any opining given are the genuine options of the persons giving them. I / We also accept that: Once submitted, this information will be transmitted Local Planning Authority and, once validated by them, be made available as part of a public register and on the authority's website; or system will automatically generate and send you emails in regard to the submission of this application.	ions ed to the
