In summary, there is no objection to the principle of development and that whilst the proposal will exceed the volume allowance set out in the Council's SPD, the siting and contained nature of the extension will reduce any such perceived impact on the openness of the Green Belt. However, it has been identified that the site is located within the conservation area where flat roof finishes are resisted in such terms. Whilst the proposal would be contained to the rear, the position and orientation of the terrace together with the presence of open land beyond means the rear elevation is readily visible from public view both along Engine Lane and further afield. As such limited screening is available that could otherwise soften the harsh line appearance that a flat roof would have.  A lean to finish with roof lights incorporated would be more acceptable and a similar stance was given when considering the extension of no.  7. However, a site visit has noted that an alternative finish of a flat roof has been installed in disregard of the permission granted by the LPA.
The level of harm would therefore need to be assessed as ultimately the LPA is required to preserve the character of the conservation area and ensure new development harmonises with the setting of both the existing and surrounding development.
Authority Employee/Member
With respect to the Authority, is the applicant and/or agent one of the following:  (a) a member of staff  (b) an elected member
(c) related to a member of staff
(d) related to an elected member
It is an important principle of decision-making that the process is open and transparent.
For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
