Details of the pre-application advice received

The proposal still appears to show four bungalows, and I would expect these buildings to be no higher than those previously shown under 22/502338. Furthermore, for me the amended layout is less engineered and more landscape-led; the unsightly parking areas are out of view when entering the site; the layout is less formal, although I wonder if plots 1 and 2 could be more staggered in position; the areas of hardsurfacing are less formal; and I note that the buildings have been further pulled back from the road. With regards to the set back of the units, the buildings on plots 3 and 4 do appear to now respect the existing front building line of the building on site. Any future planning application should make this clear.

The amended layout also appears to show more soft landscaped areas in and around the site that are not part of the domestic gardens, and this is welcomed. I would add that a 100% native landscaping scheme would be expected to be provided; and the treatment of the site's western and southern boundaries, in particular, should be carefully considered.

No elevational drawings have been submitted for consideration. As such, I can only reiterate my previous comments, in that I would advise against integral garages (which appear to have been removed); external materials (including hardsurfacing) will need to be of a high quality and positively respond to local context; a modest variation in the choice of

these materials would further help to provide more interest in any future scheme; and high quality boundary treatments should also be used over close boarded fencing.

In accordance with Local Plan policy DM5, it is important that any scheme brought forward on this site clearly demonstrates that there is a significant environmental uplift from the current situation. Subject to full design details, it is my view that if a planning application were to be submitted for this current proposal, it could be supported by the local planning authority.

### **Authority Employee/Member**

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?
