KEY

- Public right of way
- Direction of Slope
- Existing trees
- Proposed trees
- Site boundary

1. New Native hedge planting to define and enclose entrance to site
2. Low level planting at entrance to allow views across towards Cotswold Escarpment
3. Semi Intensive green roof with grass and ferns blends building into surroundings whilst creating biodiversity enhancements
4. Green Geoweb drive reduces rainwater run off and softens visual impact of drive way
5. Proposed dry stone wall enhances setting and imbeds desirable characteristics of the AONB
6. Domestic garden enclosed within the imediate environs of the dwellings minimising the extent of the domestic curtilage
7. Native tree planting reinforces enclosed character of Greenway Lane, provides privacy to dwelling and minimised impact of dwelling on users of the lane
8. New native hedge planting and hedge restoration along greenway lane
9. New native hedge to enclose the formal garden and contain the domestic curtilage of the dwelling
10. Existing established woodland
11. Timber field gate and posts gateway finish
12. Long grass borders to the domestic curtilage and gardens of the dwelling soften the transition to the surrounding countryside/woodland
