

Condition 4 - new lime rendering

This is to be finished in “best of lime” Limecote <https://bestoflime.co.uk/product/limecote/> with a geometric pattern that matches the current pattern of the property and therefore kept the same in appearances which from historic pictures is as it has always been. A picture of the property and previous work of the plasterer we have planned for the work can be seen below and is the pattern we wish to have.
