

Hi Sarah,

Following on from this, the applicant actually undertook a speed survey at the request of Alex Scott when they applied for the replacement dwelling next door, which was approved.

Below is a summary of the data:-

The device I used was a Bushnell Velocity Radar Gun.

Total Hours 16

Time Slots:

Saturday 8am to 10am and 7am to 9am

Sunday 13.20 to 15.20

Monday 7am to 9am

Tuesday 4.15pm to 6.15pm and 6pm to 8pm

Wednesday 3pm to 5pm

Thursday 9am to 11am.

Total vehicles in the 16 hours - 1102

Highest speed - 42 mph

Lowest speed - 10 mph

Total mph - 33333

Average speed - 30.247 mph

I did not include cyclists or horses and avoided any bank holidays as instructed by Alex Scott.

Hope this helps

regards
