Condition(s) - Variation/Removal

Please state why you wish the condition(s) to be removed or changed

- Due to the soil conditions present (deep area of made up ground) the original slab floor is not possible and requires a ventilated beam and block arrangement. As such the floor and plinth details have been altered. Below the slab would be a ventilated area and so will cause less impact on the historic core from potential rising damp.
- Due to the original specified tiles not being acceptable (interlocking clay pan tiles) the lowest pitch alternative (clay pan tiles) is 22.5 degrees minimum pitch, 4 degrees higher than the elevations originally shown.
- The client would like 2no rooflights to the garden room. (facing away and not visible from the highway). The roof lights proposed are 2no CR13-3 units by the Conservation rooflight company (sizes drawing attached)

If you wish the existing condition to be changed, please state how you wish the condition to be varied

The revised drawings attached to supersede those under section A of the approval.
