Priority	Essential
Requirement Type	Fell (Sectional)
Requirement Option	
Requirement Info	

Considerations	
Consideration	DEADWOOD

Comment	
Surveyor	Christopher Clay
Comment Date	04-Jul-2016
Comment	Numerous small, black stem bleeds to 1.6m AGL

Comment	
Surveyor	Christopher Clay
Comment Date	15-Jun-2023
Comment	>half of crown dead, remaining leaves mainly epicormic growth, are small and shrivelled. Terminal decline, cause not apparent. Likely fungal pathogen causing rapid, significant dieback suggests root decay. No apparent foul play.
