Details of the pre-application advice received

In summary, Policy CS1 identifies the enquiry site as being within the countryside. CS2 identifies that in countryside locations consideration will be given to the re-use of rural buildings, including their conversion. Policy H9 sets out the specific criteria under which such an application might be considered.

However, your enquiry specifically asks whether the conversion could be considered under Class Q. That Class relates to the conversion of agricultural buildings only, and a stable does not fall within this agricultural definition and so the conversion could not be considered under those regulations.

Taking the above into consideration the principle of the development proposed to convert the stable to a dwelling is likely to be acceptable under the local planning policies and guidance in the National Planning Policy Framework (NPPF), as a planning application.

However, the proposal as described is currently not supportable by officers due to insufficient information regarding the clear size of the plot and the associated garden and parking space, and the design details, but with the submission of acceptable information it may be.

Your previous enquiry regarding the use of the building as an annex also suggested that further information would be required, including how the main house and annexe would be inter-related, with a degree of dependence by the annexe on the main house. The limited space around the stable would tend to suggest that an annexe use may be preferable but working up the design and layout details may result in an acceptable scheme being achieved.

The proposal for a conversion to a separate dwelling would require a full planning application to be submitted, whilst a proposal for an annexe would require a householder planning application to be submitted.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- Yes
- No

Ownership Certificates and Agricultural Land Declaration

Certificates under Article 14 - Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended)

- No

Is any of the land to which the application relates part of an Agricultural Holding?

- Yes
- No

Certificate Of Ownership - Certificate A

I certify/The applicant certifies that on the day 21 days before the date of this application nobody except myself/ the applicant was the owner* of any part of the land or building to which the application relates, and that none of the land to which the application relates is, or is part of, an agricultural holding**

* "owner" is a person with a freehold interest or leasehold interest with at least 7 years left to run.

** "agricultural holding" has the meaning given by reference to the definition of "agricultural tenant" in section 65(8) of the Act.

NOTE: You should sign Certificate B, C or D, as appropriate, if you are the sole owner of the land or building to which the application relates but the land is, or is part of, an agricultural holding.
