

STEICO duo dry

Combined insulated sheathing and render board

Environmentally friendly insulation system made from natural wood fibres

**An economic solution:
One board type for both
Roof and Wall construction**

Areas of application

Wood fibre-board for render application on external walls

Sheathing board for both pitched roof and wall constructions

Insulated wall panel for use behind a rain screen

Combined insulated sheathing and render board made from natural wood fibres

- Instant weather protection due to proven T & G profile
- Render carrying insulation boards for ETICS systems
- Water repellent yet vapour open boards for robust constructions
- Excellent insulating properties in winter as well as summer and good acoustic performance
- Ideal for air-injected insulation from 40 mm board thickness
