 Accuracy to +/-10cm approx

Project Title 2303.05.010
Drawing Title Second floor existing
Drawing No 2303.05.010 Page 3
Scale 1:100
Date 23 July 2023
Drawing Size A4

Notes
Accuracy to +/-10cm approx

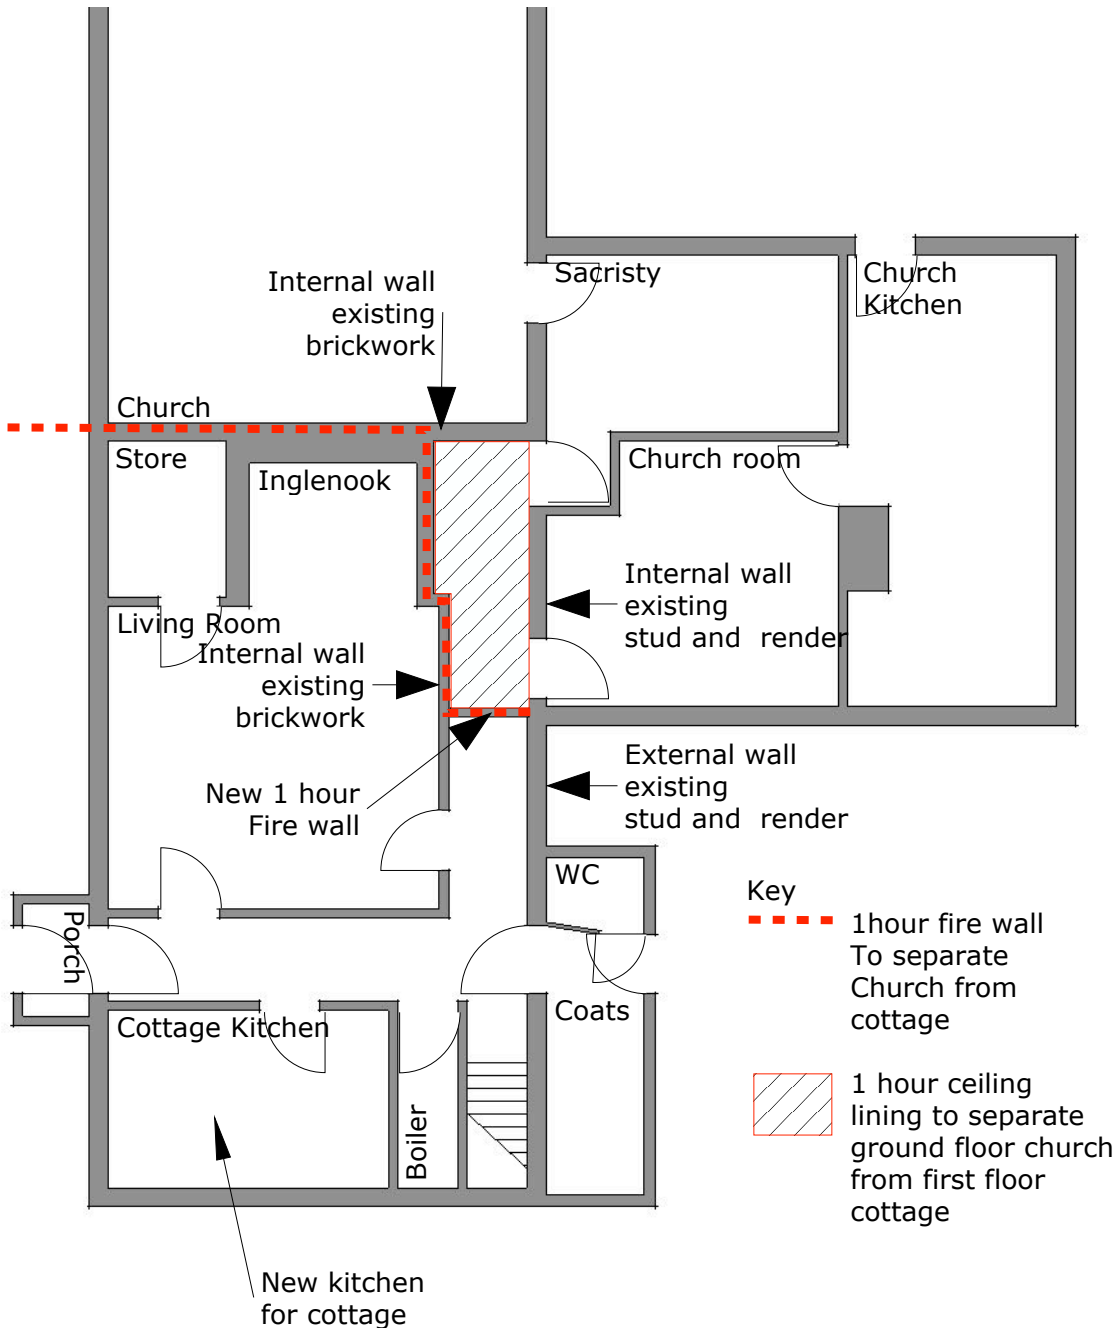

Notes

The existing brick walls between the church and the cottage will provide the fire resistance. However a check is to be made in the roof space to ensure that the brickwork extends to the roof.

The new wall in the corridor to separate the cottage from the church shall be 12.5mm gypsum based board accredited to providing 1 hour fire resistance, to either side of a timber stud. The gap between is to be filled with at least 50mm of a dense mineral wool to provide sound insulation.

The ceiling in the church section of the corridor is to be lined with 12.5mm gypsum based board accredited to providing 1 hour fire resistance.

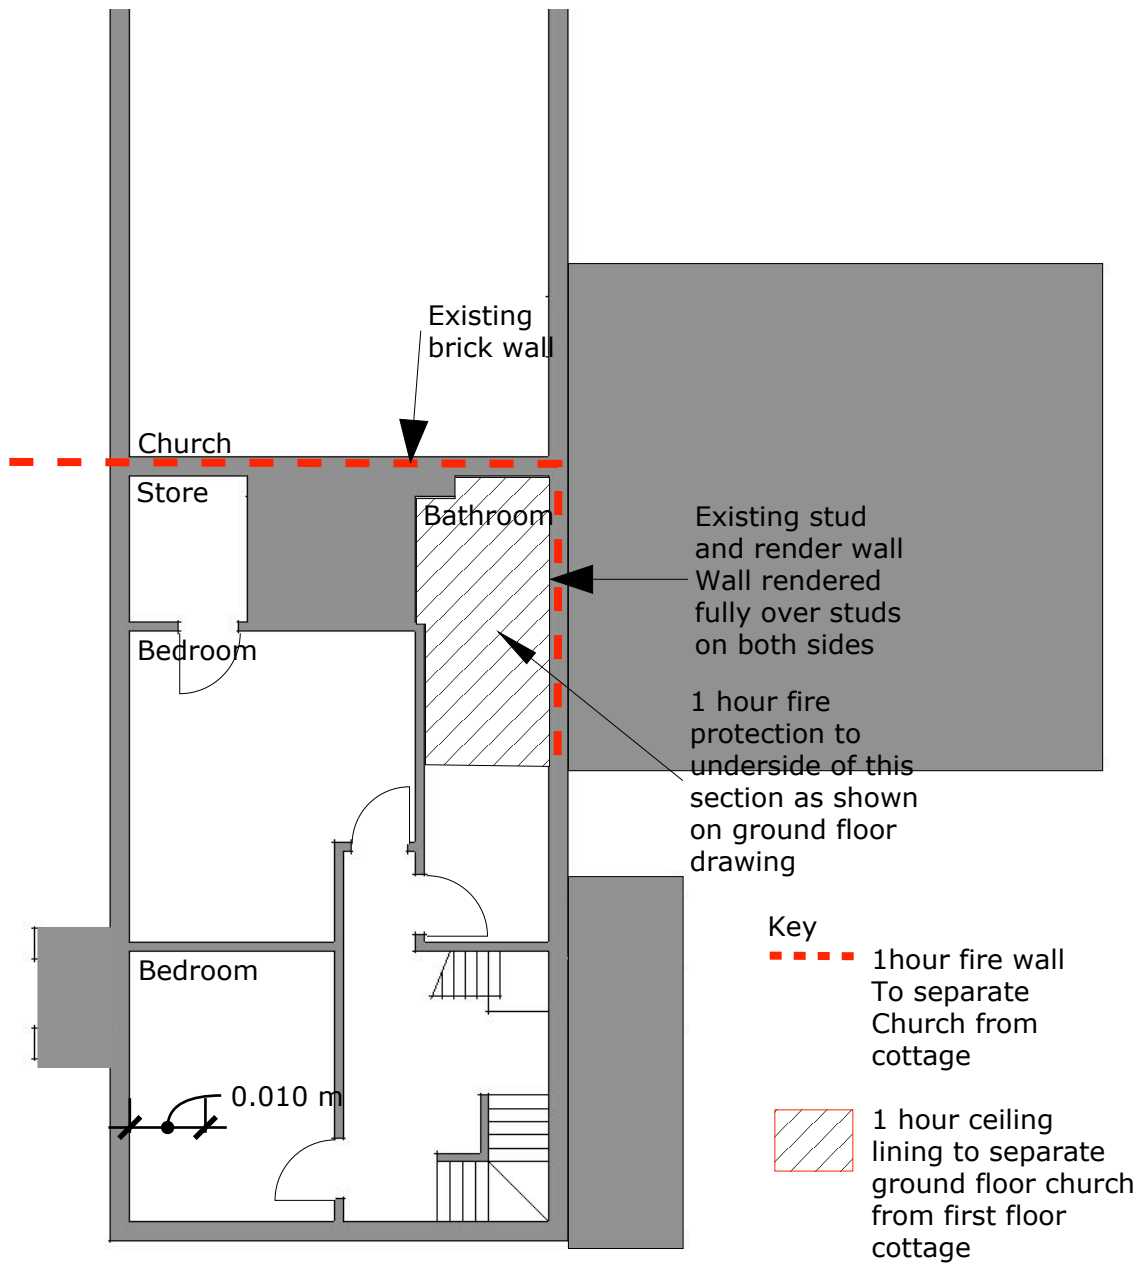

All materials to be fixed strictly in accordance with the manufacturers directions, particularly with regard to achieving the fire resistance
