H2 1888 O/S Mapping

Curtilage lines appear consistant on all mapping. The Tithe Mapping show two tenants Parcels 745 at the rear and 746 the front.

Both plans show a continuation of the rear of the building to form a courtyard of buildings

Section at end of existing appears to be denoted separately with a line rou what appears to be the original chimr stack. Diagram H2 shows a step in th front facade in 1888 indicating that th part of the building was not as it is no

The tithe mapping refers to houses and garden for plot 745 and separately to house and garden plot 746 with an adjoining plot designated garden. If this is correct there may have been 3 or more dwelling on this site in 1838.

	report any discrepancies, errors or omissions on this document to the Originator. If in doubt ASK. Notes The shading is based on drawing scaled to 1 to 1 in Archicad 24 using 3 points where possible. The most consistant data points are those of the land areas which appear generally similar in size and scale.										
	than	any c	of the	larger sca e the othe sistent wit	r ear	rly mapp	oing a	and	show	s details	
	The Tithe map is indistinct but appears to differentiate between the LHS of the building and the RHS of the building range in a different form to that of the 1888 mapping.
