**Designers Risk Assessment:**

- Installation of heavy beams - Mechanical aids should be employed if required when installing beams.
- Temporary Support - The contractor is to provide all necessary temporary propping to safely undertake the work and maintain structural stability, including sides of excavations for sub structure and retaining elements.
- Confirmation of Structural Layout - The assumptions made within the calculations and drawing should be confirmed on site, prior to commencement of works. Any differences should be discussed with Structural Engineer, in order to check calculations.
- Working at height - Suitable scaffold to be provided in order to carry out works safely.
- Asbestos - Any suspected Asbestos containing materials should be tested and removed by specialist contractors in accordance with HSE guidance.
