The loss of the canopy is accepted to not be harmful to the significance of the listed building as it is a contemporary addition of low value. The 21st century extension to the side and rear is of high quality design and materials and positively contributes to the character of the building. The proposed extension is felt to be moderate in size, scaled back from the earlier proposed extension and will enhance the appreciation of the timber frame by further exposing the rear elevation. A contemporary design is proposed so the extension can be easily read as a newer addition and the flat roof is to lessen the mass of the extension over earlier proposed gable roof forms. The walls of the extension are proposed to be largely glazed.
Authority Employee/Member
With respect to the Authority, is the applicant and/or agent one of the following: (a) a member of staff (b) an elected member (c) related to a member of staff (d) related to an elected member
It is an important principle of decision-making that the process is open and transparent.
For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
