The principle of the development of the site for the construction of new dwelling/s is acceptable, it is considered that the proposal will satisfy Policies P10, P14 or P15 of the SLP or the wider NPPF in terms of encouraging landscape features and promoting biodiversity, conserving the built environment and enhancing the wider area whilst respecting the amenity of existing and future occupiers. The introduction of dwelling/s of the size submitted would relate to the existing urban grain and would pay due regard to the character and appearance of the area. The inclusion of green space does accord with Polices P10 and P15. In conclusion, I consider it likely that a planning application for the redevelopment of the site would gain officer support and ultimately gain planning consent subject to the supporting information being acceptable.
Authority Employee/Member With respect to the Authority, is the applicant and/or agent one of the following: (a) a member of staff (b) an elected member (c) related to a member of staff
(d) related to an elected member
It is an important principle of decision-making that the process is open and transparent.
For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
