Dear Sir/Madam,

Applicant: Icon Tower Infrastructure Group

PROPOSED DEVELOPMENT OF UPGRADE TO RADIO MAST AT, POND FARM, GREAT GREEN, DISS, IP21 4BQ, E611810 N277736.

We write on behalf of Icon Tower Infrastructure Group Limited (Icon Tower) – a code operator approved by Ofcom, to submit a Prior Notification Application for the proposed installation of telecommunications apparatus at the above location. This location has been identified as being necessary for specific technical and operational requirements.

The proposal relates to:

The installation of a new sharable 25m lattice mast which is replacing an existing compound and mast (14.5m monopole). The tower is host to 6no. antennas, 2no. 600mm dish, which is mounted to a ring frame. The new base station is required due to the existing mast being unsuitable for the necessary upgrade of equipment. Additionally, the proposed mast will future proof the site as it has the capacity to host multiple operators' equipment and the ability to host 5G technologies, which the existing mast lacks.
