

Attachment 1

Notes

1. All boxes will be secured with exterior grade screws.
2. Bird boxes will be cleaned in boiling water in the autumn and left to dry thoroughly before the lids are replaced. They will also be lined with wood shavings to encourage use by small mammals during winter.
3. Bat boxes will be self cleaning.
4. Bug hotel will be situated in a shaded spot as advised by Suffolk Wild Life Trust.
5. The log pile is already in place (See attachment 5)
6. The grass has been left to grow and nettles and other ruderal have begun to spring up. Wild flower seeds will be added after the build is complete. (See attachment 6)
7. Further to the enhancements asked for, we are hoping to plant our 2.75 acre meadow with native species Wild flowers in Spring 2024. We will also be planting extra fruit trees in 2024.
