

# Key features

## Rational AURA and AURAPLUS

AURA and AURAPLUS come with security hardware as standard to meet Secured by Design requirements. The majority of timber originates from FSC®-certified forests. Read more at [rational.co.uk](http://rational.co.uk)

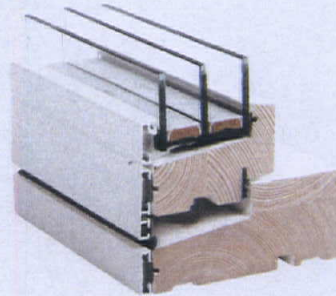

### Triple glazed

- 0.78 W/m<sup>2</sup> K U-value
- 42 dB Rw sound reduction

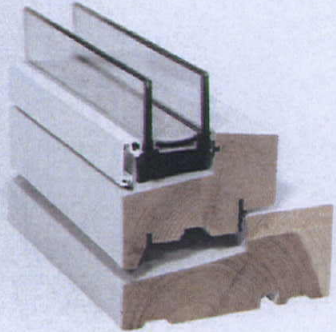

### Triple glazed

- 0.79 W/m<sup>2</sup> K U-value
- 42 dB Rw sound reduction

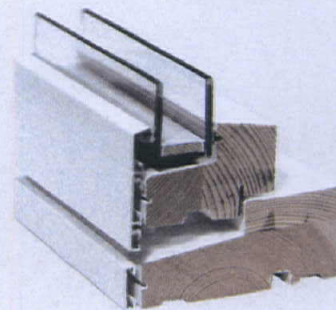

### Double glazed

- 1.29 W/m<sup>2</sup> K U-value
- 41 dB Rw sound reduction

### Double glazed

- 1.29 W/m<sup>2</sup> K U-value
- 40 dB Rw sound reduction

Top and bottom

### Rational AURA

- Timber frame
- 60-year life expectancy\*
- Available in more than 200 colours
- Best performance

Top and bottom

### Rational AURAPLUS

- Aluminium-clad timber frame
  - Low-maintenance
- 83-year life expectancy\*
