Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.

Description

Please describe details of the proposed development or works including any change of use

Mr Keeble is developing a small holding which means that he has a functional need to occupy the land in order to take care, and ensure the welfare, of his livestock, currently sheep and goats, shortly to be joined by Alpacas and pigs.

It is Mr Keeble's hope that he will be able to earn an agricultural living from the land and this application is for the opportunity to demonstrate that he can do so, it is an application for a mobile residence for 3 years, during which he hopes that the land can support him by earning at least minimum wage for at least 1 of those years. Mr Keeble is confident that he can do so.

He has a former HGV trailer that he wishes to convert into that mobile residence. It is still on it's wheels and can thus be removed. It is his intention that he will be entirely self sufficient with solar panels and batteries for electricity and a system to store and filter rain water. It will not result in any further demands on local infrastructure or utilities provision and will be entirely eco-friendly and carbon neutral.
