This Message originated outside your organization.

Dear Fay,

Further to your letter dated 7th September I can confirm agreement to the description change as set out at point 1) of the letter.

With regard to points 2) & 3) please find the updated site and block plans as requested, along with a site photo sheet.

The listed building is structurally sound and lived in as a family home and as such a structural survey has not been provided. No structural survey was considered necessary for the previous application which is currently subject to an appeal. A conversion method statement can be added as a condition to any permission in the usual way.

I look forward to receipt of validation in due course.

Kind regards,
Natalie
