Hi Sonia,

Sorry for my belated reply. Please find below reasons for wanting to carry out the work.

We wish to reduce the trees crown by no more than 3 meters in height and spread to retain the tree and stop it from getting any larger. It has lots of over extended branches, particularly laterals which are getting a bit leggy and end heavy. The tree also has a few co dominant stems, some with included bark. To prevent any of these failing particularly in high winds, by reducing the canopy it will have less of a sail affect. Also by reducing the tree this will allow more light to the houses and dropping less leaves, beech nuts and sap particularly over where the cars are parked.

Kind regards,  
Tom

Dear Mr Pask

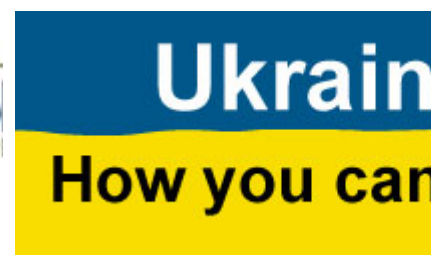

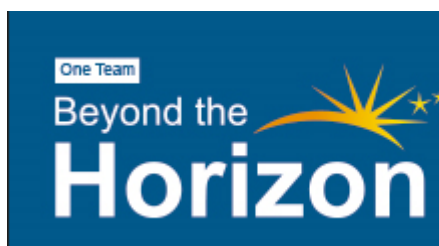

Thank you for your tree application in respect of the above.

The tree is subject to a tree preservation order and therefore the reason(s) for the work is required. Please provide the reason(s) at your earliest convenience.

We look forward to hearing from you.

Kind regards

**Sonia Payne**
