

Proposed Kitchen Garden Plans

The existing sand school is to be converted into a kitchen garden, providing the house with a sustainable source of food for the occupants.

The kitchen garden has been sympathetically designed to incorporate the following elements:

- A - Greenhouse (height 2660mm)
- B - Gravel path
- C - Well water feature
- D - Vine pergola (height 2400mm)
- E - Area for raised beds
- F - Hedge
- G - Feature wall for espalier fruit trees (height 2400mm)
- H - Petanque games pitch
- I - Wildflower meadow
- J - Orchard
- K - Pergola seating area height 2400mm)
- L - Gates
