Elements supported:
1) The proposed single storey wrap-around extension is considered to of an appropriate size 2) Based on the information provided, the proposed extension is not considered to result in a significant loss of natural light, privacy, and an unacceptable sense of overbearing. 3) Rear extensions with similar design to the full width of the property boundary could be seen in the vicinity of the site. The proposal is therefore considered not to be out of keeping with the character of the existing dwelling and surrounding area. Elements to amend / Officer suggestions: 1) A flat roof design is not necessarily unacceptable. However, taking into account the size and position of the extension, it is considered a part flat part mono-pitched roof might represent a better design in terms of minimising the overshadowing and overbearing impacts upon the immediately adjacent neighbours. The roof should drop to approximately 2.4m at eaves level towards the boundary shared with no.14. 2) The roof lights are shown to be in different positions on the proposed ground floor plan and other plans. The floor plans should be revised to match one another. 3) Information on all external materials should be annotated in the drawings or provided in a separate document alongside any future planning application.
Authority Employee/Member
With respect to the Authority, is the applicant and/or agent one of the following: (a) a member of staff (b) an elected member (c) related to a member of staff (d) related to an elected member
It is an important principle of decision-making that the process is open and transparent.
For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
Do any of the above statements apply?
○ Yes ⊙ No
