Date (must be pre-application submission) 29/08/2023 Details of the pre-application advice received Assessment: The proposal seeks to extend an existing residential dwelling. The proposal would provide a single storey side extension, front hip to gable roof extension and 'piggyback' roof extension to provide additional ancillary residential floorspace. The principle of the development would be compatible with and would not change the use of the site. It is considered that the proposed extension would be a subordinate addition and of an architectural style sympathetic to the host property. It is recommended that the external finishes should be of a matching or similar appearance to the existing host property It is considered from the information submitted that the proposed development by virtue of its size, siting and design in relation to the neighbouring properties would not cause undue material harm to the residential amenities of the neighbouring occupiers. However, the applicant should give regard to residential amenity design in their proposals and provide an analysis in particular on the proposed developments impact on neighbouring daylight/sunlight in regards to BRE guidance and the 25 and 45 degree tests. Conclusion Officers are supportive of the principle of the proposed development and would invite the applicant to submit a planning application for formal consideration. The Council will make every effort to ensure that the advice given in the pre-application process is as accurate as possible. Any advice given by Council Officers for pre-application enquiries does not constitute a formal response or decision of the Council with regards to any future planning applications and, whilst it may be a material consideration it cannot be held to bind the Council in its formal determination of a subsequent application. It should be noted that the weight given to pre-application advice notes will decline over time. Advice for schemes submitted more than 1 year after the date of issue will not be valid. In accordance with the Council's pre-application procedures, the next round of consultations and advice will also be subject to a fee. Authority Employee/Member With respect to the Authority, is the applicant and/or agent one of the following: (a) a member of staff (b) an elected member

- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
