SITE LAYOUT

existing drop kerb extended / front walling adapted as nec.

GROUND FLOOR

FIRST FLOOR

Due to changes in ownership / classification of all private drains, all exact drainage locations / routes / depths / sizes / etc. to be confirmed on site and it is to be established between client, contractor and LA BCO if a Build Over / Near Agreement with Anglian Water is required.

A high level cable exists that attaches to the property. The client is to contact the suppliers to discuss the alterations required to the cable to enable the extension to be built - this is to be done prior to work starting. All works to the supply are to be done by a person competent to do so and in accordance with guidance to be provided by the supplier.
