Hi Natalie,

Following on from our meeting last Wednesday thank you for sending through the sketch showing the revised option for the proposed side extension to your existing barn conversion.

I will update the LPA's case record for your pre-application submission confirming that the revised details for the side extension overcome the concerns that were set out in the formal response sent on 26th July by the case officer.

In summary please accept this email as confirmation that the proposals as shown on the Sketch Option 3 drawing are considered acceptable and could be supported by policies DP1 and DP7 of the Mendip Local Plan.

Kind regards

Simon Trafford
