## Description of Proposal

Does the proposal consist of, or include, the carrying out of building or other operations?

- Yes  
 No

If Yes, please give detailed description of all such operations (includes the need to describe any proposal to alter or create a new access, layout any new street, construct any associated hard-standings, means of enclosure or means of draining the land/buildings) and indicate on your plans (in the case of a proposed building the plan should indicate the precise siting and exact dimensions)

The proposal is to introduce a single window and conservation roof light into a first floor bedroom. The window would be small - OA size 400 x 600 tall and would be a side hung painted timber casement window with 4 glazed panes - to match the vernacular style. The proposed window would @ first floor level in the west facing elevation of a painted render wall of number 23. The location plans shows the context, namely; the elevation of number 23 forms one side of the neighbours - 21 Church Street - side access. Both walls are blind. The proposed roof light would be conservation specification and would be on the north facing pitch of the roof. It would not be visible from the public domain. It would be fitted with blinds to limit impact on dark sky policies.

Does the proposal consist of, or include, a change of use of the land or building(s)?

- Yes  
 No

Has the proposal been started?

- Yes  
 No

## Grounds for Application

### Information about the existing use(s)

Please explain why you consider the existing or last use of the land is lawful, or why you consider that any existing buildings, which it is proposed to alter or extend are lawful

effectively no impact on house or wider community. Visible work - the window - consistent with vocabulary of the EYE conservation area generally and Church Street specifically. While the room that the window will "service" has both ventilation and natural light by dint of 2 internal windows the introduction of direct natural light and variable ventilation via an external opening is desirable and would be consistent with good practice. The criteria that the PD natural light rights address don't easily apply; the house, while not ancient is certainly old and a characteristic of this house type is that they often evolve with resulting "dark corners". This submission is intended to address this.

Please list the supporting documentary evidence (such as a planning permission) which accompanies this application

N/A

Select the use class that relates to the existing or last use.

Please select...

### Information about the proposed use(s)

Select the use class that relates to the proposed use.

C3 - Dwellinghouses

Is the proposed operation or use

- Permanent  
 Temporary

Why do you consider that a Lawful Development Certificate should be granted for this proposal?

The works are minor.  
The impact of the work on the wider community is nil - or pretty adjacent to nothing.  
The benefit to the home owner would be significant.  
In its placing on the wall the window element is consistent with the way the conservation area of Eye has evolved. While not significant it is interesting.

### Site Visit

Can the site be seen from a public road, public footpath, bridleway or other public land?

- Yes  
 No

If the planning authority needs to make an appointment to carry out a site visit, whom should they contact?

- The agent  
 The applicant  
 Other person

### Pre-application Advice

Has assistance or prior advice been sought from the local authority about this application?

- Yes  
 No

### Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff  
(b) an elected member  
(c) related to a member of staff  
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

Yes

No
